**KOMBY** 

## SYNERGIST ACIDIFIER IMPROVES ABSORPTION

KOMBY is a wettable powder formulation to be added to all crop protection and fertilizer foliar applications. These products, combined with crop protection products, enhance the crop natural defences against external agents (fungi, bacteria, viruses, pests). These products are also characterized by high acidic functions, which facilitate stomata uptake and translocation inside the plant of active ingredients and therefore providing faster treatment efficacy.

CROP	TIME OF APPLICATION	DOSE FOGLIARE*	FERTIGATION DOSE*
All crops	Coupled with foliar fertilizer applications	0,3-0,5 kg/ha	
All crops	Coupled with hydrosoluble fertilizer applications in fertigation		1-2 kg/ha
